Improved Process Designed to Protect Your Great Lakes Wholesale Merchandise

In our continued effort to provide superior customer service, we have taken measures to ensure our pallets arrive in the best condition possible. We now shrink wrap our pallets in a stronger black shrink wrap and seal them with our new white Great Lakes Wholesale security tape. This process is designed to reduce the possibility of pallets being damaged or tampered with in transit. The Pallets should arrive with the seal intact. If the wrap or sealing tape is damaged, please note that on the bill of lading and contact **Randy Foulkes** immediately at **(800) 233-2668 ext 152**.

We appreciate your business and always welcome your feedback. If you have any questions about the new process, or general concerns regarding a delivery, please contact your sales representative.

**ALL GLW PALLETS SHOULD ARRIVE
IN BLACK SHRINK WRAP
WITH WHITE AND BLUE SEALING TAPE LIKE THIS**

If your shipment arrives without the sealing tape, please note that on the bill of lading as you sign for it and notify us immediately.
